

Run #10

Near the Jesus Statue - PNS & NOBODY

The ingenious hashing skills of these two intrepid hares shone through today to be able to set the most exhilarating hash run ever set in East Timor. The mood was set as the crowds flogged sorry that should be flocked to remember this occasion. On On was the sound as they headed off away from the beach and on up this little hill. On On they went till they got to the top and they were stuffed. Cum Late was showing the Portuguese guys what for as G'sB kept a look out on top with the magic view of the Jesus back beach. They all got to the top eventually. All Night Long was cumming up the rear ?? with Jackie a new runner. The pack started down the hill with the wandering Egyptian out the front. On down they went, after being caught out by a few cheques which paid out well. The pack kept together pretty well which once again was a good sign that the run was shit hot. Through the blade grass they went down and down and down till the three Portuguese, Pharoahs mate, Hassan and Spook went full bottle all to get a can of piss
