

## **RUN # 15 BUPS RETURNS TO THE BOB MARLEY RUN**

Down on the beach we waited for this intrepid stuffin run to start. The hashers kept cumming from no where and we ended up with 45 runners tonite. The book took ages to sign as we went around and met all the newbies. It's amazing Slops pisses off to Darwin and the numbers swell just like he does every morning. The revenge was in Bup's eyes as we headed off up the road. On On and farkin' On Up. The locals thought it was great watching all these poofters running just to get back to the piss. The first cheque cum up and everyone started back down only to find out it was back up and up and up. Loose Moose was helping Nobody up the hill cos' Nobody hurt her footsies. Hundreds of locals jeered and booed with oh joyous joy as they saw these fine athletic specimens of beer swilling yobbos go thundering through their villages. Bups turned up halfway with water to quench everyones thirst, the poofter where was the piss. Nobody ?? wanted water but we told him to piss off and kept running on on. Woofter was up the front today for a change and FOD did a bloody big Short Cut following Cat and Flash Fucker home. Down the back of ICRC we ran till we smelt that inevitable smell of cold piss. Whats wrong with Carlitu and Feliz our two resident Timorese hashers. They're the first two in each week to get the piss.

Not a bad run for Bups
