

Run #19

VIKING - (UNHCR BUILDING - DILI)

It looked to be a quiet Sunday hash run as few people were waiting outside the UNHCR building. The Beermaster had arrived and the idea was to forget the run and start drinking. Not long after, the usual crowd of 40 hashers had arrived and it unfortunately ruined our plans. Newbies were spread throughout the meet and hash namings were off to a quick start for some. Peter pushed in front of Kali (the ASST GM) whilst trying to sign in. He was awarded the hash naming of "CUT OFF".

VIKING gave the usual spiel about the track, stating that it was a walk in the park. The run itself may have been, but the markings (although well tracked) confused many of the hashers. Several people went the wrong way at the first intersection (OLD FART AND THE DOC) which is of concern after being told to go the opposite direction. Two hundred metres down the track there was more confusion (as a good hare sets out to do) but eventually "ON ON" echoed throughout the suburbs guiding the crew to the correct route. VB and FELIZ JONES set the pace and the likes of SCRUBBER, DYLAN and CUTE AS made sure that they did not commit to any unnecessary mileage (along with many others). The newly named newbie "Wonderbra" (who set the record for the quickest hash named newbie) showed some excellent form for a mature bloke. KALI was concerned when he saw David (WONDER BRA) from behind with a bra on. At the completion of the run he worked out that it was a heart rate monitor, hence the hash naming "WONDER BRA". Once the team had reached "the hold check" it was downhill to the start point. The hounds were racing with "VB" in front and others close behind dodging the shit from all kinds of animals that lived in the small villages. Everybody succeeded the slight downhill and charged in for a great finish. A hot afternoon saw many a hasher enjoy a few cold ones.
