

## **Run # 8**

### **Portuguese Hosp. – PNS & G'sB**

Well pretty short and pretty sweet, but the looks on everyones face when they saw them there beautiful hills that confronted them. On On as the 20 hashers headed off on up. A false laid precariously at the start caught a few all the way to the top and back down again to catch up. Through the kampongs, wondering which way the trail went, but if it's gone up then it's gotta' cum down and down it went across the street and down again but that led only to one thing and that was to go up and up and the hashers crawled literally as the backmarkers overtook them. Dunny paper everywhere even to the top of this hill and then another cheque appeared, with a false at the end of it that got everyone going, back down and then the On Home appeared much to the delight of everyone, short and sweet. We had runners tonight from Aust, Kiwi's, Yanks, Gambia, Egypt, Portugal and Melbourne.
