Run # 9

THE ABBATOIR - KALAY

We're doing something right cos' we had 29 runners today from all over the world including Norway and New Zealand (Baa Baa!!). or was it the prowess that Kalay was a virginal hare never having set a trail before. On On up the road till we got to a cheque then on back past the start. The locals appeared everywhere not really knowing about this pack of poofters running around the streets only to get back and have a beer. Past the old UN HQTRS we went then on up to a falsie. The pack still pretty close with G4 up the front with Koala. On back we went surprising all the locals running through their property 'Diak Kalay' and 'Butarde' we yelled being very versed in the East Timor language. The hills arrived and our mate from Gambia said 'No woories' and off he went. Hashers were everywhere and yet they plodded on up to another falsie trail which caught everyone out, and the back runners were all of a sudden FRB's. New Moose was leading the way through the local villages, the locals loving it as they hadn't seen so many people since the invasion. On down to another cheque which virtually spelt the On Home. Not a bad run for a virgin

Down Downs: Kalay – Virgin Hare

The 5 boys from Singapore

Emma – New runner

G4 & Geoff Hill – new runners

Ribeino & Hartins from Portugal & new runners & cumming late

Arnt – New runner from Norway
