UPCUMING RUNS

# 3	14MAY Slops - Resendo Hotel
# 4	21MAY PNS & Turtle - Airport car Park Comoro
# 5	28MAY
# 6	04JUN

Run # 1 29April 2000. - SLOPS & PNS

The beautiful suburbs of Dili appeared appealing as we set off on this Run # 1, the absolute first time a Hash run had ever been run in East Timor.

The throngs gathered for this momentous occasion, an occasion which the likes had never been witnessed before. They cum in their droves just to be here and go down!! in history and just to remember the illustrious run being set by two of the greatest living hashers that have ever graced this planet and Timor and Dili. Hashers cum from Munno Para H3, Bushrangers H3, Canada, Boroko H3 and Canberra.

We set off into the unknown around the village close to the UN Hospital. The houses were ramshackled but people were living there, they look at us in intrigue but we were made to feel welcome. Mister, Mister you got boiled lollies for me. Into the first cheque, which fooled most hashers as they either had to go left or right. On On were the sounds as the neighbourhood was shattered with Slops yelling out and Water Rat chatting the locals. Peace has been shattered and Darryl the Kanuk thought the run was going to be long and cool. Winding around through the streets we went making sure that the flour was still there to be seen. Turtle ended up doing some fantastic moves to get up with the pack and yet there was bewilderment from all the locals as to what was happening. We made it home, no probs to the first circle led by the first RA in Dili.
