

## ***Run #11***

### **KIWI House – Wee Willy & Porky Baa Baa Baa Baa**

What a crowd and half today with 36 hashers turning up for the run and it certainly wasn't because the 2 KIWI coppers set it. They tried their hardest to set the trail with wool but ended up using baby powder. After we explained hash to everyone off we set into the depths unknown of this far away country. We got a false straight away and that blew everyone as we turned back towards the beach. Heading up through the villages of Dili we went, with the Mighty Big Cohuna out front for a stuffing change. On On was the sound as hasher after hasher passed by the villagers who were pretty helpful showing us which way to go. G4 and the boys were doing ok until they got to the end. Nobody and ANL decided they weren't going to run all that way just to run back so they short cutted. G'sB and Mr X tried to set the pace but they weren't doing so well as everyone was going past and they were falling further behind. The pack kept pretty close and obeyed all the cheques to some extent but we gotta' keep calling the 'On On' for the trail. Good turn up tonite but pass the story of hash onto all your bruvvers. Baa Baa Baa Baa

### **Down Downs: Wee Willy & Porky – The hares**

10 Virgin hares today or was it 11, could've even been 12 and that included Latrine, Mr X, Big Cohuna, Heartstarter and Leaky Dick
