

## **Run #16**

### **AGPU – PNS & Nobody at the back of Pertanima**

Not a bad run this week as everyone turned out to vote in a new mismanagement even after the superflous job that the previous mismanagement did. The run was set in superb east Timorese surroundings as we set off up the road to the first cheque. The falsie threw a few FRB's off but they were soon back on track through the local villages of Dili. Beautiful hash running country was being savoured by all as the ominous sounds went out On On through this cornfield in a big loop (mainly cos' the hares couldn't get out of the four walls), then back out into the open plains once again. Oyster today set a plundering pace, why I dunno but he did. The scenery was great and everyone kept pretty well packed together. On down onto the beach for a smooth run to the On home!! The run was superb what else can I say

### **Down Downs:** PNS – Outgoing GM – well deserved

Hash naming – Andrew Lipke – Mr Hanky

From all of us thanks for running hash here in Dili and we hope you have enjoyed doing the same. It was an idea mooted by Slops and myself and we didn't realize it would get as big as what it has. It certainly has blown us away with the number of hashers and newbies that turn up each week more than what we see with our own clubs back home. Pass the word on about hash to

everyone and get the locals into it also. Keep an eye on Latrine as he'll make a good GM, he's been running hash for years and knows the ropes. Remember hash is a drinking club with a running problem. Take care
