HASH TRASH

Website:
<http://www.lafaek.info/dilihash/index.html>

The Pre-conflict "Pool Party" run and the Post Conflict "Bad Actors" Run

Run 319 – twas the Saturday before things went pear-shaped, and all was quiet in the land, except for a pack of Hashers at the Unzud Embassy...

Ommm

All style in one package..

Still in country...

Namings

But as with all such pool parties something went horribly wrong. Someone trod on Boulder's tail and the game was up, he crapped in the pool and Hashers fled in all directions. The RA had to get kitted up and send in reinforcements, and the Mis-Management committee decided the best approach was to mis-manage on a grand scale by proxy from abroad. The results were seen on Run 320 – the "Bad Actors" Hash Run, also at the Unzud Embassy.

RA arrives with the shopping

Always helpful in a crisis, Hashers test the RA's helmet

Acting GM presides whilst Big Fossil is named POTW for being nice to those who wanted to leave the country quickly. Go figure..

Reduced numbers call for extra discipline

Emergency ad-hoc altar

The hare decided to set the run with his eyes closed, strange behaviour which continued into the very small circle

What was it about armpits?

Och, Captain, I'm losing control of it, it's got a mind of its own!!

POTW – Run 319 – Queen Muffa for misdirected emails
- Run 320 – Big Fossil for losing control of the border

UPCOMING HASHES

Advised in separate emails from the fearless trailmaster – Corruption, or his proxy if we can't clean Boulder' mess out of the pool by next week

**Makes you talk shite,
then fall over!**

Reassuringly Twatted
